

Ekta Sanghvi is the principal Lighting designer at Lighting Concepts known as the 'Lightingale of India' and a visionary with over two decades of experience in the lighting industry. Through the establishment of Lighting Concepts, she has envisioned an end-to-end service in the field of lightscaping and design consultations.

Her insights into lighting execution have highlighted the essential integration of natural and innovative lighting systems while promoting resource conservation. Ekta has designed versatile projects, ranging from retail outlets to large townships, IT parks, and other commercial zones. She has played a pivotal role in government projects and holds the esteemed position of being a member of NITI Aayog's "Mentor of Change" program, where she actively leads and guides initiatives.

In addition to her practices, she has made significant progress in designing outdoor lighting fixtures, such as "Tumblerr," a product that addresses traditional glare-prone designs and simplifies electrical Lighting systems.

Her journey throughout the years has woven together the fields of architecture and Lighting design, emphasizing the value of space as its peak potential. Engaging in exhibitions, workshops, and as a guest lecturer, she collaborates with leading international architects and designers for various upcoming projects across the world.
